

Air Traffic Control (ATC) On Job Training Instructor Duration: 2 weeks

Objectives

Designed for qualified controllers, the course aims to cover all aspects of On the Job Training, to ensure that the delegate has received the information and training to prove the necessary skills, knowledge and competence required in gaining a satisfactory result in On Job Training and ultimately leading to the award of the OJT endorsement. It also equips future OJTIs to prepare, train, monitor, evaluate and debrief trainees. This will be achieved by both theoretical and practical instruction, demonstrations and a verbal examination.

Prerequisite

- Current Air Traffic Controller's Licence with an Aerodrome Control Rating
- English Language upto IELTS 5.5

Course Content

Theory

- OJT in ATC
- Elements and Organizations
